FIXED PROJECT PRICE
₹55,000
66 hours at ₹850/hr

TIMELINE
12 working days
from advance and content

TO BE DELIVERED
10 pages
plus shared components

INCLUDED
2 revision rounds
30-day bug warranty

A compact, mobile-first storefront for Fashion Jewellery: home, collections, three product pages, cart and four policy pages, with multi-currency pricing and ordering handed off to WhatsApp. The build is plain HTML, CSS and JavaScript, hosted free, so the running cost stays close to zero while the shop grows.

WHAT THE SHOP GETS

Homepage
Sticky header with wordmark, currency and cart, hero, collection teasers, story and footer.

Collections page
Filter tabs with shareable category links, product grid and a styling call to action.

Product pages (3)
Image viewer, thumbnails, live price, specifications, related pieces and add to bag.

Cart page
Quantity steppers, remove, live subtotal, WhatsApp order hand-off and an empty state.

Currency system
INR, USD and GBP, chosen automatically from the visitor's country, manual choice saved.

Policy pages (4)
Shipping, returns, privacy and terms on the shared page layout.

Responsive build
Phone, tablet, landscape and desktop layouts, category list inside the menu.

Handover
Hand-written HTML, CSS and JavaScript with no build step, accessibility labels and README.

INCLUDED AND NOT INCLUDED

Included: two rounds of revisions per page, testing on iOS, Android and desktop browsers, accessibility labels and keyboard support, 30 days of bug fixes after launch, and the source files with documentation on final payment.

Not included: domain and hosting fees, studio photography, legal review of the policy text, paid stock imagery, and content updates after the warranty — available through the care plan or quoted separately.
